Hard Skills

- Programing Logic
- Data Structure

Business Skills

- Teamwork
- Communication
- Time Management
- Problem Solving

Manoj R

ABOUT ME

The only thing that distinguishes me from other candidates for this position as a developer is my superior technical expertise and capacity for solving challenging issues. I have a strong background in Java and similar technologies, as well as knowledge of programme architecture, database design and development techniques.

PERSONAL PROJECTS

RAILWAY TICKET BOOKING SYSTEM

Railway ticket booking system is a software application developed using Spring MVC and MySQL. Features an admin module for train management and a user module for booking tickets. Admins can add trains, while users can search for trains, select seats, and make bookings. Seamless integration of database ensures efficient data management.
